SPEAKERS' PROFILE

DR. KOH LAM SON

MBCHB, FRCSEd, FRCOG

LEADING ANTI-AGING AND REGENERATION SPECIALIST INNERGLOW MD

Dr. Koh graduated from the University of Bristol UK in 1972. He worked at the Hammersmith Hospital and St Thomas Hospital in London before he returned to Singapore in 1979 with a double postgraduate degree in obstetrics and gynaecology and general surgery. After a short stint in the government hospital, he took over an established private O & G practice in 1981, following the migration of the incumbent. In 1984, he took up the challenge of parliamentary life and became a Member of Parliament from 1984-1991.

Not unexpectedly, the active and hectic life as an O & G specialist and a politician affected his health. Dr Koh sought remedies in anti-aging and alternative medicine and found it to be very effective for him.

In 2006, he retired from active O & G practice and started a clinic on age management and regenerative medicine. He chaired the 2008 "First Asian Conference on the Science of Aging and Regenerative Medicine" with Dr Robert Goldman, the co-founder of the American Academy of Anti-Aging Medicine.

Dr. Koh has emerged from retirement to begin a new chapter of his life in a new medical specialty because he believes it will revolutionize the fundamental thinking and approach to medicine.
