Vida-C™ Shower by

If you are seeking treatments that entail multiple benefits for your skin and hair, this is the revolutionary wellness product you got to have! After a hard day's work, the abundance of negative ions from the shower will leave you feeling totally refreshed & energized, giving your tired and weary body the relaxation it needs.

Benefits of Vida-C™ Shower

1) Vida-C™ Vitamin C Filter Replacement

The Vitamin C derivative is extracted from natural ingredients in oranges and with advanced technology it is turned into a stable form of ascorbic acid in gel form, easily dissolved in water and quickly absorbed by our skin.

Research has shown that Vitamin C promotes whitening and it is an essential component in the stimulation of collagen growth. Collagen is the substance that gives structure and strength to our skin. As we advance in age, there is a natural reduction of collagen production in the body and this is revealed by the appearance of wrinkles on the skin. Thus, by stimulating the production of collagen, the process of aging skin cells may be reversed.

Also, Vitamin C is a proven antioxidant and can help reduce skin damage caused by free radicals in the environment we live in. In other words, Vitamin C that is properly delivered and absorbed into our skin cells, helps to reduce wrinkles and improve skin texture.

Advanced formula Vitamin C has the ability to neutralize chlorine in the water preventing the damage to your skin and hair.

With so many benefits attached to Vida-C™ Shower, you can now enjoy firmer and smoother skin!

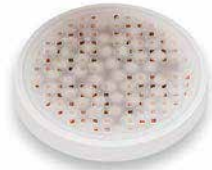

2) Patented Water Spray Plate

The patented design of the Vida-C™ shower water spray plate makes it a winning product in 3 aspects:

I) Generates 400 millions of negative ions per liter of water. These negative ions are antioxidants that neutralize the positively charged pollutants such as reactive oxygen species (also known as free radicals), bacteria, viruses and other microbes in the air that constantly attack our body, making us feel tired and dull. Even our skin and hair will start to appear that way too. The Vida-C™ Shower will make a positive difference in your life! It helps to combat these undesirable pollutants and drives away the fatigue, giving you a refreshing and rejuvenating experience.

3) Ceramic Balls

II) The patented design and the size of the holes of the spray plate is the smallest in the industry. It generates much stronger water pressure that provides a therapeutic spa effect on our tired bodies. No wonder happy Vida-C™ Shower users all look forward to a good shower after a hard day's work!

III) The fact that this is a proven water saver is definitely something to rejoice about! It can help you save water up to 25% if you switch from a regular shower head to the Vida-C™ Shower series. Saving up as you shower has never been this easy!

4) Non-woven Filter

The ceramic balls downsize the water molecule cluster. When Vitamin C is dissolved into these smaller clusters, they are quickly and easily absorbed by our skin cells.

The ceramic balls cartridge is to be replaced once per year or every 60,000 litres.

The non-woven filter is added to effectively remove dirt, rust, and undesirable particles found in water supply. This filter can be easily removed for washing.

Ordering Information:

Vida-C™ Shower (M)	VC6000
Vida-C™ Shower (L)	VC7000
Vida-C™ Filter Replacement, 3/PK	VCF100
Vida-C™ Non-Woven Filter (M), 3/PK	VCFMNW03
Vida-C™ Non-Woven Filter (L), 3/PK	VCFLNM03
